General Occupational Themes

Enterprising, Artistic, Realistic

I was surprised that Artistic showed up in the #2 position and Social showed at the bottom spot as I would expect those two to be swapped.

I agreed with all the suggestions in Enterprising: Sales, Management, Marketing, Public Speaking, Law and Entrepreneurship.

I was surprised that flight attendant would show so highly.

Surprised that work style was in high mid range towards working with others. E in Myers-Briggs was heavily towards Extroversion which also showed up in my talents. I love working closely with others but also value time to work independently. Supported by high team orientation towards working in groups.
