INSIGHTS

Working backwards is a lot harder than I thought it would be. I wasn't sure of what steps to take to end up with my Right Career, but after putting in some careful thought I thought that an entrepreneur needs to know the ins and outs of business so that they can successfully start up their own company. Because of this I decided that consulting would be a great fit until I gain the knowledge and capital to have my own business. This exercise will be immensely helpful in staying focused on attaining my dream.
