Begin at the End Exercise

Social Work Environment: I work in a collaborative and open social environment, the company is small and therefore I am able to know most of the employees at the company. I will value all of my employees' inputs on how to make the company better.

Physical Work Environment: My Company is a great asset to the neighborhood and is a well-known and well-thought of company. It is located downtown in a city near the beach.

Personal Relationship: I married my husband at age 28. We are both athletic and enjoy working out and keeping fit. He has a corporate job, but still supports my career.

Live: We own a house in the suburbs of a city near the beach.

Commute: We both own cars and will commute up to 30 minutes to our job

Car: Both my husband and I will have our own cars. I would like a luxury SUV.

Fun: My husband and I will take frequent trips downtown and go out to bars and shows. We love sporting events and will frequently attend sporting events. We will also eat out a lot and take overseas vacations once a year.

Parenting: We both hope to have our first child at age 30, and three more by the time I turn 36.

Extended Family: I am close to my parents and extra close to my brother. He might be a co-owner in my company. I see my extended family for all the major holidays.

Friends: I'm still friends with my closest friends from high school as well as my close friends from college. I have made other good friends in the city whom I have met through work and athletics.

Health: I belong to a fitness gym in my city. I have run at least one marathon and I work out five times a week, taking various classes including kick boxing, cycling, strengthening, yoga and Pilates.
