## Understanding your Age 30 Engine & the Fuel it will need

### Begin at the End Exercise

From doing this exercise I realize that I will need enough money for my business. Owning a business could require a lot of money, especially businesses like restaurants. Having a larger than average family will require a larger than average income. I also will want to do some leisure activities that can be expensive so I'll need to make a decent amount of money, but at this point I don't know how much this will be.
